“There is no better place to start changing the world than London.

“As Green Mayor I’ll bring the voice of Londoners into City Hall. Together we will build homes we can afford, cut transport fares for outer London, create better jobs, build a more resilient economy, and clean up our filthy air.

“Your vote counts - by electing Greens to City Hall you have already won a living wage for many workers, new funding for clean transport, better policing and action on housing. A fairer voting system means you can elect more of us on 5 May.”

End the crisis of filthy air, bringing pollution below legal limits by 2020 at the latest.

Fair charges on motoring, to reduce congestion and pollution and help pay for public transport.

A GREENER LONDON

A not-for-profit London Energy Company, to compete with the 'Big 6' and power Crossrail.

GIVE LONDONERS A VOICE

Focus more police time on community policing, tackling hate crime and supporting young people.
